Oskar Schindler Dec 28 2022 Spy, businessman, bon vivant, Nazi Party member, Righteous Gentile. This was Oskar Schindler, the controversial savior of almost 12,000 Jews during the Holocaust who struggled afterwards to rebuild his life and gain international recognition for his wartime deeds. Author David Crowe examines every phase of the subject's life in this landmark biography, presenting a figure of mythic proportions that one prominent Schindler Jew described as "an extraordinary man in extraordinary times."

Escaping the Holocaust Jun 10 2021 Illegal Jewish immigration prior to the founding of the State of Israel forms one of the most fascinating chapters in the history of Zionism and modern Jewish history. This volume focuses on what has become known as the final phase in the history of the Holocaust.

Messages of Murder Mar 27 2020 This book is a study of the reports of the Einsatzgruppen, the four SS extermination squads that followed in the wake of the German attack on the Soviet Union on 22 June 1941. It was the Einsatzgruppen that began the systematic massacre of Jews, communist officials, and other "undesirables" in the territories overrun by the Germans. More than one million people, mostly Jews, ultimately perished at the hands of the Einsatzgruppen Kommandos. This horrific destruction was recorded in great detail in the top-secret reports of the Einsatzgruppen, which were compiled in Berlin based on material sent in from the east by the Kommandos. No other documents discovered offer such an extensive and precise day-by-day account of mass killings written while these killings were actually taking place.

The killings are the principal focus of this book and are analyzed in the central chapters from several perspectives. Included among these are descriptions of the main features of the reports and the various stages in their compilation, examples and methodology of presentation of the killings, and comparisons of reporting procedures and totals of victims shot by each of the four Einsatzgruppen. The study begins by noting the post-war discovery of the reports and then assumes a roughly chronological sequence in its overall treatment. An outline of the major National Socialist agencies and general reporting practices before the war is followed by the events of the war as reflected in the reports. Then the postwar "life" of the reports is examined with particular reference to their use as legal evidence at Nuremberg as well as a consideration of their reliability as historical source material. In addition to the descriptive and comparative information mentioned above, this study places the reports within the historical context of the reporting practices, complex rivalry, and self-aggrandizement of the leading German agencies. Certain questions of concern to historians are also explored in light of the reports. These include: the reactions of the indigenous eastern population to the German presence; the active collaboration of members of the local population and the German army in the killing operations; and the role of the Einsatzgruppen in relation to the current intentionalist-functionalist debate concerning National Socialism and Hitler's attempt to exterminate the Jews. Among the wealth of Nazi material that survived the war, the Einsatzgruppen reports occupy a significant place. As a virtually complete and self-contained body of documents, the reports are a fertile source for historians of the Third Reich and the Holocaust. In what they reveal directly about the destruction and what they tell us indirectly about the men who perpetrated this destruction, the reports provide us with important insight into the process of mass murder.

Fathoming the Holocaust Nov 27 2022 Fathoming the Holocaust represents the culmination of a singular effort to attempt to explain the Final Solution to the "Jewish Problem" in terms of a general theory of social problems construction. The book is comprehensive in scope, covering the origins and emergence of the Final Solution, wartime reaction to it, and the postwar memory of the genocide. It does so within the framework of a social problems construction, a perspective that treats social problems not as a condition but as an activity that identifies and defines problems, persuades others that something must be done about them, and generates practical programs of remedial action. Berger holds that social problems have a "natural history," that is, they evolve through a sequence of stages that entail the development and unfolding of claims about problems and the

formulation and implementation of solutions. Fathoming the Holocaust is therefore a book that aims to advance sociological understanding of the Holocaust, not simply to describe its history, but to examine its social construction, that is, to understand it as a consequence of concerted human activity. In doing so, Berger hopes to encourage the teaching of the Holocaust in the social scientific curricula of higher education. In contrast to the extensive historical literature on the Holocaust, Berger offers a distinctly sociological approach that examines how the Holocaust was constructed--first as a social policy designed by the Nazis, implemented by functionaries, and resisted by its victims and opponents; later as several varying layers of historical memory. The scope of this book extends from the prewar through the contemporary periods, focusing on the societal issues governing the interpreting of these events in Israel, the German Federal Republic, and the United States. Berger's is a text with both large general interest and essential material for courses in social problems, European history, and Jewish studies. Ronald J. Berger, professor of sociology at the University of Wisconsin-Whitewater, has previously published six books and numerous articles and book chapters. His earlier book on the Holocaust was a sociological account of his father and uncle's survival experiences.

Narrating the Holocaust Oct 02 2020 In this literary study of memoirs describing at first hand the horrors of German concentration camps, the principal question asked is: How did the survivors find the words to talk about experiences hitherto unknown, even unimaginable? Beyond being a mere analysis of discourse, Narrating the Holocaust reflects the situations in camp that triggered these responses, and shows how the professional authors adapted certain literary genres (e.g. the travel story, the Hassidic tale) to serve as models for communication, while the vast majority who were not trained as writers merely used the form of the report. A comparison between these memoirs and the more frequently discussed camp novel identifies the different narrative strategies by which the two are determined. Most of the 130 texts discussed here were published in

German between 1934 and the present; some famous Italian, French and Polish texts have also been included for comparison.

Budapest Building Managers and the Holocaust in Hungary Oct 14 2021 This book traces the role of Budapest building managers or concierges during the Holocaust. It analyzes the actions of a group of ordinary citizens in a much longer timeframe than Holocaust scholars usually do. Thus, it situates the building managers' activity during the war against the background of the origins and development of the profession as a by-product of the development of residential buildings since the forming of Budapest. Instead of presenting a snapshot from 1944, it shows that the building managers' wartime acts were influenced and shaped by their long-term social aspiration for greater recognition and their economic expectations. Rather than focusing solely on pre-war antisemitism, this book takes into consideration other factors from the interwar period, such as the culture of tipping. In Budapest, during June 1944, the Jewish residents were separated not into a single closed ghetto area, but by the authorities designating dispersed apartment buildings as 'ghetto houses'. The almost 2,000 buildings were spread throughout the entire city and the non-Jewish concierges serving in these houses represented the link between the outside and the inside world. The empowerment of these building managers happened as a side-effect of the anti-Jewish legislation and these concierges found themselves in an intermediary position between the authorities and the citizens.

What Was the Holocaust? Jun 29 2020 A thoughtful and age-appropriate introduction to an unimaginable event—the Holocaust. The Holocaust was a genocide on a scale never before seen, with as many as twelve million people killed in Nazi death camps—six million of them Jews. Gail Herman traces the rise of Hitler and the Nazis, whose rabid anti-Semitism led first to humiliating anti-Jewish laws, then to ghettos all over Eastern Europe, and ultimately to the Final Solution. She presents just enough information for an elementary-school audience in a readable, well-researched book that covers one of the most horrible times in history. This entry in the New York Times best-selling series contains eighty carefully chosen illustrations and sixteen pages of black and white photographs suitable for young readers.

The Holocaust in Illustration and Art May 09 2021 12 illustrations focusing on central themes of the holocaust. Four lessons, each with 3 illustrations. Booklet provides background, discussion questions, and activities.

The Night of Broken Glass Nov 22 2019 November 9th 1938 is widely seen as a violent turning point in Nazi Germany's assault on the Jews. An estimated 400 Jews lost their lives in the anti-Semitic pogrom and more than 30,000 were imprisoned or sent to concentration camps, where many were brutally mistreated. Thousands more fled their homelands in Germany and Austria, shocked by what they had seen, heard and experienced. What they took with them was not only the pain of saying farewell but also the memory of terrible scenes: attacks by mobs of drunken Nazis, public humiliations, burning synagogues, inhuman conditions in overcrowded prison cells and concentration

camp barracks. The reactions of neighbours and passersby to these barbarities ranged from sympathy and aid to scorn, mockery, and abuse. In 1939 the Harvard sociologist Edward Hartshorne gathered eyewitness accounts of the Kristallnacht from hundreds of Jews who had fled, but Hartshorne joined the Secret Service shortly afterwards and the accounts he gathered were forgotten – until now. These eyewitness testimonies – published here for the first time with a Foreword by Saul Friedländer, the Pulitzer Prize historian and Holocaust survivor – paint a harrowing picture of everyday violence in one of Europe's darkest moments. This unique and disturbing document will be of great interest to anyone interested in modern history, Nazi Germany and the historical experience of the Jews. *Waiting for Jerusalem* Sep 13 2021 A detailed account of the political and military circumstances of the deportation of the Jews from Bessarabia and Bukovina to Transnistria. Focuses on the efforts of Jewish leaders (Wilhelm Filderman, Rabbi Alexandre Şafran, Abram Leib Zissu) and of the Zionist youth organizations to prevent further deportations, to assist inmates in the ghettos and camps, and to organize their rescue, mainly by legal or illegal emigration to Palestine. Describes Antonescu's changing policy toward the Jews, and gives details on the Bucharest and Iasi pogroms, as well as on the preparation and failure of the Nazi plan for total deportation of the Romanian Jews, pointing to the circumstances which led Antonescu to cancel the Nazi-Romanian agreement for deportation. Mentions various forms of Jewish resistance and rescue actions to save Transylvanian Jews who escaped Nazi deportation to Auschwitz. On pp. 225-236 notes antisemitic reactions in Romania provoked by the 1991 commemoration of the Holocaust.

Organizing Rescue Sep 01 2020 Upheavals of the modern period have dramatically changed the traditional pattern of the rescue of Jews by Jews. Whereas until the mid-nineteenth century rescue was carried out by community leaders in accordance with the religiously rooted injunction for the redemption of captives, in the modern period largely secular international Jewish organizations and the State of Israel have emerged as the primary instruments of expressing Jewish national solidarity. The campaigns to restore the exodus from the Soviet Union and to rescue Ethiopian Jews through Operation Moses are the most recent expressions of the imperative to save threatened Jewish communities and reconstitute them elsewhere. The dynamics and achievements of organized rescue in the modern period are critically assessed in this volume, which includes 18 interpretive essays and case studies by leading European, American and Israeli scholars. Organizing Rescue is divided into four sections. The introductory essays examine the roots of Jewish solidarity in Jewish law, and trace the transformation of rescue activity from a religious to a largely secular undertaking. The three sections that follow group selected case studies chronologically. Part I, from the Damascus Affair to the First World War (1840-1914), deals with new patterns of response to the persecution of Jews in Europe, Asia and Africa under the impact of emancipation, nationalism and antisemitism. Part II, World Wars and

the Shadow of the Holocaust (1914-1948), deals with the transitional period that brought hope and bitter disillusion to Jews in Europe and the Middle East. Part III, The Contemporary Period (1948 to the present), examines the different manifestations of Jewish national solidarity that developed in response to the Holocaust and the creation of the State of Israel. These studies illuminate and evaluate the efforts of Jews to defend and preserve communities separated by vast distances and diverse cultural and political systems. By placing these studies in an integrated historical and comparative framework, Organizing Rescue provides a timely and unique perspective for understanding national Jewish solidarity in the modern period.

Hana's Suitcase Dec 16 2021 New edition with foreword by Nobel Peace Prize winner Desmond Tutu: "How extraordinary that this humble suitcase has enabled children all over the world to learn through Hana's story the terrible history of what happened and that it continues to urge them to heed the warnings of history." In the spring of 2000, Fumiko Ishioka, the curator of a small Holocaust education centre for children in Tokyo, received a very special shipment for an exhibit she was planning. She had asked the curators at the Auschwitz museum if she could borrow some artifacts connected to the experience of children at the camp. Among the items she received was an empty suitcase. From the moment she saw it, Fumiko was captivated by the writing on the outside that identified its owner – Hana Brady, May 16, 1931, Waisenkind (the German word for orphan). Children visiting the centre were full of questions. Who was Hana Brady? Where did she come from? What was she like? How did Hana become an orphan? What happened to her? Fueled by the children's curiosity and her own need to know, Fumiko began a year of detective work, scouring the world for clues to the story of Hana Brady. Writer Karen Levine follows Fumiko in her search through history, from present-day Japan, Europe and North America back to 1938 Czechoslovakia and the young Hana Brady, a fun-loving child with a passion for ice skating. Together with Fumiko, we learn of Hana's loving parents and older brother, George, and discover how the family's happy life in a small town was turned upside down by the invasion of the Nazis. Based on an award-winning CBC documentary, Hana's Suitcase takes the reader on an incredible journey full of mystery and memories, which come to life through the perspectives of Fumiko, Hana and later Hana's brother, who now lives in Canada. Photographs and original wartime documents enhance this extraordinary story that bridges cultures, generations and time. Ideal for young readers aged 9 and up. Hana's Suitcase is part of the award-winning Holocaust Remembrance Series for Young Readers.

The Holocaust in History Dec 24 2019 Did Europe's Jews go passively to their deaths? How did Nazi anti-Semitism evolve into mass murder? How important was Hitler's own hatred of the Jews in creating the Final Solution? Why didn't the Allies aggressively try to save Jews before the war's end? Michael R. Marrus, in the first comprehensive assessment of the vast historical literature on the Holocaust, tackles explosive issues and tortured memories, handling them with judiciousness and sensitivity. Drawing on the entire range

of historical literature on this subject, he comments upon the questions that have troubled observers over the years. By applying the tools of historical, sociological, and political analysis, he presents a balanced but eye-opening treatment of many highly charged topics on the Holocaust, including the role of collaborationist governments, the Roman Catholic Church, the local populations, Jewish ghetto leadership, and the Jews themselves. Book jacket.

The Burden of Conscience Jan 25 2020 Gives a short survey of French antisemitism and French Jewry before 1939, emphasizing the rift between the immigrant and native Jewish communities. The outbreak of war brought unity but, with the fall of France, many native Jews hoped to fit into the new order (in both the north and the south) while immigrants were stripped of all protection. Describes German efforts to set up a central Jewish representative body, and competition with Vichy's Commissariat General aux Questions Juives for control of the Jews in both zones. Examines the debates on the formation of the UGIF (Union Generale des Israelites de France) which institutionalized the separation of Jews on a racial basis. Surveys the activities of the UGIF and their relations with the French authorities. Contends that their welfare activities, including the administration of the deportation center at Drancy, assisted the Germans in the destruction of French Jewry.

Arrows in the Dark (Volumes 1 and 2) May 21 2022 Arrows in the Dark recounts and analyzes the many efforts of aid and rescue made by the Jewish community of Palestine—the Yishuv—to provide assistance to European Jews facing annihilation by the Nazis. Tuvia Friling provides a detailed account of the activities carried out at the behest of David Ben-Gurion and the Yishuv leadership, from daring attempts to extract Jews from Nazi-occupied territory, to proposals for direct negotiations with the Nazis. Through its rich array of detail and primary documentation, this book shows the wide scope and complexity of Yishuv activity at this time, refuting the idea that Ben-Gurion and the Yishuv ignored the plight of European Jews during the Holocaust.

Beginnings, Mass Murder, and Aftermath of the Holocaust Feb 24 2020 A study based on lectures delivered by Solkoff, a psychologist, in the 1970s-80s, together with a historian, William Sheridan Allen, at the State University of New York at Buffalo. Focuses on psychological factors, but also discusses the complex ways politics, economics, culture, and social forces interacted with individual motivations in Germany to produce the Holocaust. Emphasizes the role of behavioral reinforcement of violence against the Jews. Views antisemitism as having been a necessary but not sufficient cause of the Holocaust. Among other relevant factors in Nazi Germany were: authoritarianism, lack of resistance, a gradual breakdown of inhibitions against violence, the practice of euthanasia, Hitler's personality, and support for Hitler by Nazi leaders. also discusses Jewish resistance, the Judenräte, questions of Jewish survival, the rescuers, and non-rescuers or bystanders. Stresses that, contrary to a common view, many survivors were not psychologically destroyed or deformed by their suffering. Concludes with a consideration of the possibility of another genocide,

and how it might be avoided.

The Nazi Holocaust Dec 04 2020 The Nazi Holocaust is one of the most momentous events in human history. Yet, it remains on many levels a baffling and unfathomable mystery. By shunning simplistic 'explanations' Ronnie Landau has set out, in a clear, thought-provoking and enlightened fashion, to mediate between this vast, often unapproachable subject and the reader who wrestles with its meaning. Locating the Holocaust within a number of different contexts - Jewish history, German history, genocide in the modern age, the larger story of human bigotry and the triumph of ideology over conscience - Landau penetrates to the very heart of its moral and historical significance. Deeply concerned lest the Holocaust, as a 'unique' phenomenon, be cordoned off from the rest of human history and ghettoized within the highly charged realm of 'Jewish experience', he is at pains to show that transmitting understanding of the Holocaust is about connecting with all humanity. Intended both for the general reader and for students and academics (especially in history, psychology, literature and the humanities), this work is an important breakthrough in the struggle to perpetuate the memory of a tragedy which the world is all too ready to forget.

Documents on the Holocaust Jul 31 2020 These 213 documents on the theory, planning, and execution of, and reaction and resistance to, the Nazi plan to exterminate European Jews date from the 1920s through the closing days of World War II and focus on the experience of eastern Europe. The crystallization of the principles of Nazi anti-Semitism, the policies of the Third Reich toward the Jews, the period of segregation and enclosed ghettos, and the stages through which the 'final solution' were implemented are some of the topics covered. Other documents shed light on Jewish public activities and the organization of the Underground and Jewish self-defense. Many of the documents of Jewish origin were not published previously. This comprehensive collection is essential for understanding the history of the Holocaust. Yitzhak Arad has written numerous books, including *The Pictorial History of the Holocaust*. Israel Gutman is a coeditor of *Anatomy of the Auschwitz Death Camp*. Abraham Margalot taught at the Hebrew University of Jerusalem. Introducer Steven T. Katz is a professor of religion and the director of the Center for Judaic Studies at Boston University.

Remembering the Holocaust in Educational Settings Apr 20 2022 *Remembering the Holocaust in Educational Settings* brings together a group of international experts to investigate the relationship between Holocaust remembrance and different types of educational activity through consideration of how education has become charged with preserving and perpetuating Holocaust memory and an examination of the challenges and opportunities this presents. The book is divided into two key parts. The first part considers the issues of and

approaches to the remembrance of the Holocaust within an educational setting, with essays covering topics such as historical culture, genocide education, familial narratives, the survivor generation, and memory spaces in the United States, United Kingdom, and Germany. In the second part, contributors explore a wide range of case studies within which education and Holocaust remembrance interact, including young people's understanding of the Holocaust in Germany, Polish identity narratives, Shoah remembrance and education in Israel, the Holocaust and Genocide Centre of Education and Memory in South Africa, and teaching at Deakin University, Melbourne, Australia. An international and interdisciplinary exploration of how and why the Holocaust is remembered through educational activity, *Remembering the Holocaust in Educational Settings* is the ideal book for all students, scholars, and researchers of the history and memory of the Holocaust as well as those studying and working within Holocaust education.

Final Sale in Berlin Sep 25 2022 Before the Nazis took power, Jewish businesspeople in Berlin thrived alongside their non-Jewish neighbors. But Nazi racism changed that, gradually destroying Jewish businesses before murdering the Jews themselves. Reconstructing the fate of more than 8,000 companies, this book offers the first comprehensive analysis of Jewish economic activity and its obliteration. Rather than just examining the steps taken by the persecutors, it also tells the stories of Jewish strategies in countering the effects of persecution. In doing so, this book exposes a fascinating paradox where Berlin, serving as the administrative heart of the Third Reich, was also the site of a dense network for Jewish self-help and assertion.

The Palgrave Handbook of Britain and the Holocaust Jul 23 2022

This handbook is the most comprehensive and up-to-date single volume on the history and memory of the Holocaust in Britain. It traces the complex relationship between Britain and the destruction of Europe's Jews, from societal and political responses to persecution in the 1930s, through formal reactions to war and genocide, to works of representation and remembrance in post-war Britain. Through this process the handbook not only updates existing historiography of Britain and the Holocaust; it also adds new dimensions to our understanding by exploring the constant interface and interplay of history and memory. The chapters bring together internationally renowned academics and talented younger scholars. Collectively, they examine a raft of themes and issues concerning the actions of contemporaries to the Holocaust, and the responses of those who came 'after'. At a time when the Holocaust-related activity in Britain proceeds apace, the contributors to this handbook highlight the importance of rooting what we know and understand about Britain and the Holocaust in historical actuality. This, the volume suggests, is the only way to respond meaningfully to the challenges posed by the Holocaust and ensure that the memory of it has purpose.

Enacting History Nov 03 2020 Enacting History is a practical guide for educators that provides methodologies and resources for teaching the Holocaust through a variety of theatrical means, including scripted texts, verbatim testimony, devised theater techniques and process-oriented creative exercises. A close collaboration with the USC Shoah Foundation I Witness program and the National Jewish Theater Foundation Holocaust Theater International Initiative at the University of Miami Miller Center for Contemporary Judaic Studies resulted in the ground-breaking work within this volume. The material facilitates teaching the Holocaust in a way that directly connects students to individual people and historical events through the art of theater. Each section is designed to help middle and high school educators meet

curricular goals, objectives and standards and to integrate other educational disciplines based upon best practices. Students will gain both intellectual and emotional understanding by speaking the words of survivors, as well as young characters in scripted scenes, and developing their own performances based on historical primary sources. This book is an innovative and invaluable resource for teachers and students of the Holocaust; it is an exemplary account of how the power of theater can be harnessed within the classroom setting to encourage a deeper understanding of this defining event in history.

The Rhetoric of Genocide Apr 08 2021 Genocide represents one of the deadliest scourges of the human experience. Communication practices provide the key missing ingredient toward preventing and ending this intensely symbolic activity. The Rhetoric of Genocide: Death as a Text reveals how strategic communication silences make this tragedy probable, and how a greater social ethic for communication openness repels and ends this great evil. Careful analysis of practical historical figures, such as the great debater James Farmer Jr., along with empirical policy successes in places such as Liberia provide a communication-based template for ridding the world of genocide in the twenty-first century.
